Rules and Regulations

- Registration fee of 500rs will be collected only from teams who are shortlisted for Online round
- Participants must adhere to the schedule, guidelines, and instructions communicated by the organizing committee.
- Professional and respectful conduct towards other participants, mentors, judges, organizers, and guests is required. Any misconduct leads to disqualification.
- Do not interfere with, copy, damage, or intentionally disrupt the work of other participants.
- Each participant may be part of only one team. Changes require approval.
- Teams must select and develop a solution within one of the specified hackathon problem domains.
- All submitted ideas and projects must be original. Plagiarism leads to disqualification.
- Open-source libraries, APIs, datasets, and AI tools are allowed if licenses are properly acknowledged.
- Shortlisted teams must participate in all mandatory stages (idea screening, progress reviews, Grand Finale).
- Teams must submit project materials (presentation, prototype) within specified deadlines.
- During presentations, clearly explain the problem statement, solution, and technical implementation.
- Projects are evaluated based on committee criteria. Judges' decisions are final.
- Winners and shortlisted teams may have an opportunity to get development tools and internship opportunities from Microsoft
- Inter college teams are allowed
- Important announcements will be announced through mail, website and instagram page. Make sure to visit these platforms often.
- Finalists must carry the admit card for Finale Entry. Otherwise your entry is prohibited.
- For further queries contact us through Mail and provided phone numbers.
- Only the given PPT Template should be used for Presentations
